## A note from your teachers:

Parent(s):

I hope everyone had a great week! Thank you again for ALL of the Valentine treats and gifts. You are all so thoughtful and know how to make us feel loved.

As we are winding down the quarter, we have a lot to fit in. We'll be focusing on weather symbols and weather predictions this week. Please have your students continue to practice all of the vocabulary that is posted on Google Classroom.

In the classroom, we could use some small water bottles and colored pencils.

Don't forget it's a long weekend. We can't wait to see everyone back on Tuesday!!

Becky and Marie
