A note from your teachers:

Parent(s):

Hey all...another week has flown by! On February 14 we will have our 2nd annual I HEART MATH AND SCIENCE DAY as a school. Fifth grade has planned some fun rotations for that morning for the day. We have also built in time to exchange Valentines if you choose. We just ask that you choose to exchange Valentines you bring something for the whole class. The class list is also attached!

In addition, we will be doing student lead spring conferences in a few weeks. The link sign up link is included in the email!

In the classroom we need: heart stickers, individual snacks (no nuts), and small handheld staplers.

Have a great weekend!!

Becky and Marie
