- 3/3 Heat Transfer Project due

## A note from your teachers:

Parent(s):

I hope everyone has had a great weekend and a chance to enjoy this nice weather! We're about midway through the quarter and continuing to practice and work on goals in all areas. This week I will be introducing a project on heat transfer that will be due on March 3. Look for more information on that this week!

In the classroom, we still need **HIGHLIGHTERS** 😊

Have a great week!

Becky and Marie
